EDUCATION

B.S., Computer & Information Sciences

University of Tennessee, Knoxville
Aug 2019 – May 2023 · 1794 Honors Program

Coursework

Human-Computer Interaction, UX Research & Testing, UI/UX Design Principles & Fundamentals, Algorithms & Data Structures, Programming for Information Systems

SKILLS

Design

Figma UI/UX research
UI/UX design systems
Front-end design Typography
Project design

Engineering

React.js (Flux) Node.js C++/CLI
ASP.NET SQL Web Front-end
Full-stack

Other

JIRA Technical support
Research Generative AI
Prompt engineering

ABOUT

Full-stack engineer trained in C++ and UI/UX design fundamentals, experienced building custom applications and interfaces. Passionate about **UX/product design** and **software engineering**, and seeking early-career opportunities to grow my skills and portfolio.

EXPERIENCE

SCADA Engineer

Avangrid · Vancouver, WA · Aug 2026 – Present

- Develop custom applications in React.js, C# and Node.js on the ROADS (Remote Operations, Application, Development & SCADA) team, writing SQL queries and integrating database data into them as needed.
- Integrated AI and LLM tools into the development process to ship commits and bug fixes faster.
- Answer JIRA tickets and provide technical support; serve in the on-call rotation triaging issues and failures across renewable infrastructure.

Rotational Graduate

Avangrid · Vancouver, WA · Aug 2024 – Aug 2026

- Migrated older web applications to React.js and Node.js; updated asset information in the AVEVA PI SCADA system.
- Performed lost-generation claims and ERCOT analysis on renewable assets, reading contracts to determine energy and time-based availability, generation minimums and production guarantees.
- Developed the Avangrid brand design system with third-party contractors, providing feedback and iterating on it.

Software Engineer

Optum · Raleigh, NC · Jun 2022 – Aug 2023

- Designed and developed front-end interfaces for custom applications, collaborating with other interns on problem statements from our mentors.
- Presented progress and sprint retrospective findings to business leaders and stakeholders.

Administrative Assistant

University of Tennessee · Knoxville, TN · Jan 2021 – Jun 2022

- Maintained and ran routine hardware testing on Dell PowerEdge servers.
- Triaged user issues by answering tickets and providing technical support; prepared meeting materials and handled clerical duties.

University Researcher

University of Tennessee · Knoxville, TN · Jun 2020 – Aug 2020

- Researched the impact of COVID on vulnerable populations, interviewing local Knoxville businesses and building a Qualtrics survey to gather data.
- Wrote a research paper on the findings and presented it at the Eureka Conference.
